**TAKING IT TO THE STREETS** will raise money to continue the Street SmART Program that has been offering opportunities to young people from Hobsons Bay for over a year. We provide free street art workshops to youth aiming to engage them in their community and build on their self-esteem and confidence. So far in 2009 the Street SmART group has painted two shipping containers at the Laverton Community Centre and the Louis Joel Community Arts Centre respectively, as well as being involved in the Blank Canvas art exhibition as a part of Art in Public Places 2009. The Street SmART group will also be exhibiting in the Sub12 exhibition program in September this year.
